OptiCheck

OptiCheck-Top Table System in A3 or A4 size

The **OptiCheck-Top Table System**, with Scan – Box for automatic Offline – Inspection

If you want to ensure quality being independent from the production line, or using smaller amounts of boards

The „stand alone“ system allows a flexible inspection. Combined with your repair station you can embrace two exercises, optimizing both your quality and your production process.

The boards will be inserted manually, the inspection is done automatically, recognized errors can be corrected at once.

- **compact performance**
- **easy and fast installation**
- **easy to use**

The **OptiCheck Computer** is a common PC with selected powerful components, which guarantee a smooth running high-speed image processing.

Technical Data (A3 Scan-Box):

power consumption:	240V, 50Hz, 2A
dimension:	750 x 540 x 420 mm
weight:	45 kg
board size:	430 x 320 mm
max. image size:	420 x 290 mm
max. board height (up):	30 mm
max. board height (low):	50 mm
max. resolution:	1200 dpi (0,021 mm/Pixel)
(sizes and weight without OptiCheck – Computer)	

Technical Data (A4 Scan-Box):

power consumption:	240V, 50Hz, 2A
dimension:	650 x 510 x 460 mm
weight:	30 kg
board size:	370 x 300 mm
max. image size:	330 x 210 mm
max. board height (up):	30 mm
max. board height (low):	50 mm
max. resolution:	600 dpi (0,042 mm/Pixel)
(sizes and weight without OptiCheck – Computer)
